Professional Summary

Software Developer with nearly 2 years of experience building **enterprise commerce systems**, CMS-driven storefronts, and AI-powered applications. Skilled in **Next.js**, **TypeScript**, **React.js**, **GraphQL**, **REST APIs**, **BigCommerce Catalyst**, **Makeswift**, **Node.js**, and **Express.js**. Experienced in Figma-to-production development, reusable UI systems, performance optimization, security fixes, and cross-functional delivery.

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Radix UI, shadcn/ui, Framer Motion, GSAP Basics

Backend: Node.js, Express.js, Next.js API Routes

State Management: React Query, Redux, Zustand

APIs and Databases: REST APIs, GraphQL, SQL, MySQL, PostgreSQL, Neon DB, Prisma ORM

Platforms and Tools: BigCommerce Catalyst, Makeswift, Git, GitHub, Azure Repos, Vercel, Netlify, Render

AI Integration: Gemini API, Google AI SDK, LLM Integration, Prompt Engineering, LM Studio

Professional Experience

Software Developer – Arizon Digital – USA

Sep 2024 – Present

- Built production-ready **Next.js** and **TypeScript** interfaces from Figma designs for enterprise commerce applications.
- Improved application security by resolving **customer ID exposure**, applying **Content Security Policy** fixes, and configuring secure cookie behavior.
- Optimized performance using reduced duplicate API calls, **Promise.all**, memoization, reusable utilities, and cleaner data-fetching patterns.
- Refactored complex modules and resolved **50+ high-priority SonarQube/code quality issues** related to complexity, repeated logic, and reusable function design.
- Collaborated with clients, QA engineers, and backend developers to clarify requirements, validate functionality, and support production releases.

Key Company Projects

GES Exhibitor Portal and Show App *Next.js, TypeScript, GraphQL, REST APIs, BigCommerce Catalyst, Makeswift, Radix UI, jsPDF*

- Built core exhibitor portal modules including authentication, show pages, My Shows, account pages, profiles, orders, microsites, forms, headers, footers, and dynamic content sections.
- Developed **PLP/PDP** interfaces, booth management flows, cart redirections, shopping list updates, and header-level booth controls using **Radix UI**.
- Engineered dynamic **microsite pages** with API-driven and **Makeswift CMS**-managed section rendering.
- Delivered downloadable **iCalendar events**, PDF workflows, label-form PDF exports, progress bars, and recommended product carousel support.
- Contributed to Show App admin features inside BigCommerce, including UK catalog functionality, add-product flow with lock controls, and Quill-like content behavior.

Belami Commerce Platform *Next.js, TypeScript, Tailwind CSS, React Query, BigCommerce Catalyst, Makeswift, Handlebars*

- Contributed to a large-scale commerce platform containing **45 websites**, building reusable components and integrating storefronts with **Makeswift CMS**.
- Completed **5 sites in a short timeline**, adapting login, registration, B2B customer registration, and site-specific storefront flows.
- Implemented **Facebook and Google SSO login** and customized **transactional email templates** using **Handlebars**.
- Established reusable **Tailwind CSS** design patterns and improved order, authentication, address, and product listing pages using API and rendering optimizations.

Prosoco *Next.js, Tailwind CSS, Makeswift*

- Created **15+ Makeswift components**, including product carousels, progress bars, color carousels, before-after carousels, and custom Figma-based layouts.

Personal Projects

Local Agent – Nextron AI Desktop Application

[Frontend](#) · [Backend](#)

Nextron, Next.js, Electron, TypeScript, Express.js, PostgreSQL, Prisma ORM, Neon DB, Gemini API, Google AI SDK, Zustand, Render

- Built an AI-powered desktop application using **Nextron** with a ChatGPT/Gemini-style UI, recent chats, project-based conversations, and dark/light theme support.
- Integrated **Gemini API**, **Google AI SDK**, streaming AI responses, and explored local LLM workflows using **LM Studio**.
- Designed backend APIs with **Express.js**, **Prisma ORM**, and **PostgreSQL**, using **Neon DB** and **Render**.
- Built an **App Store agent** concept for converting user intent into **Winget** commands to list, install, uninstall, and update applications.

NordiXOne Corporate Website

[Live](#) · [GitHub](#)

Next.js, Tailwind CSS, Framer Motion

- Delivered a responsive corporate website in a 3-member team within **3 days**, using **Next.js**, **Tailwind CSS**, and **Framer Motion**.

Achievements and Certifications

- **Best Performer Award** – Arizon Digital
- [React Basics](#) – Coursera
- [Programming with JavaScript](#) – Coursera
- [Introduction to Front-End Development](#) – Coursera

September 2025

Education

MERN Stack Development – KGiSL Institute of Technology

Mar 2024 – Jul 2024

Bachelor of Engineering – Mechanical Engineering

2019 – 2023 SACS MAVMM Engineering College, Anna

University, Madurai
