Professional Summary

Software Engineer with nearly 2 years of experience building scalable web applications, eCommerce platforms, and modern user interfaces. Experienced in **Next.js**, **TypeScript**, **React.js**, **GraphQL**, **REST APIs**, **BigCommerce Catalyst**, **Makeswift**, and **Node.js**. Skilled in developing reusable frontend architectures, CMS-driven content solutions, and full-stack applications while collaborating with clients, QA teams, and backend developers.

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Tailwind CSS, Radix UI, shadcn/ui, Framer Motion

Backend: Node.js, Express.js

State Management: React Query, Zustand, Redux

APIs & Database: GraphQL, REST APIs, Prisma ORM, Neon Database

Platforms & CMS: BigCommerce Catalyst, Makeswift

Tools & Deployment: Git, GitHub, Azure Repos, Vercel, Netlify, Render

Professional Experience

Software Engineer

Arizon Digital USA

Sep 2024 – Present

Chennai, Tamil Nadu

- Contributed to large-scale **BigCommerce Catalyst** storefront development using **Next.js**, **TypeScript**, **GraphQL**, and **Tailwind CSS**.
- Played a key role in the **Belami Project** by establishing reusable frontend architecture and design patterns supporting **45+ websites**.
- Built responsive and pixel-perfect user interfaces from **Figma** designs, ensuring design consistency across platforms.
- Developed reusable UI components including product carousels, color carousels, and before-and-after comparison sections with **CMS-driven** content experiences.
- Built custom **Makeswift** components enabling non-technical stakeholders to manage content efficiently without developer intervention.
- Integrated **Google** and **Facebook SSO** authentication, strengthening security and enhancing user experience across multiple storefronts.
- Contributed to the **GES Project** by developing authentication pages, dynamic layouts, progress tracking systems, **PDF generation** workflows, downloadable **ICS calendar** integrations, and content management experiences.
- Collaborated directly with clients, QA teams, and backend developers throughout the full project lifecycle.

Projects

Nextron AI Assistant

Next.js, Electron (Nextron), TypeScript, Express.js, Prisma ORM, Neon Database, JWT, Gemini API, Zustand, Render

- Built an **AI-powered desktop assistant** using **Nextron** (Next.js + Electron) with a full-stack architecture spanning desktop and cloud.
- Implemented **JWT authentication**, project-based conversation management, and persistent chat history backed by **Prisma ORM** and **Neon Database**.
- Integrated **Gemini AI** for intelligent responses with dark/light mode theming and a responsive in-app UI.
- Developed an **App Store module** supporting install, upgrade, list, and uninstall operations for third-party tools.
- Deployed backend on **Render** and explored **LM Studio** for local LLM integration experiments.

GES Platform

Next.js, TypeScript, GraphQL, Tailwind CSS, Makeswift

- Developed a content-driven platform with dynamic layouts, authentication pages, and progress tracking dashboards.
- Implemented server-side **PDF generation** workflows and downloadable **ICS calendar** integrations for event man-

agement.

- Built **CMS-driven** content management experiences using **Makeswift**, empowering non-technical editors.

NordiXOne Corporate Website — nordixone.com

Next.js, Tailwind CSS

- Built a fully responsive corporate website for NordiXOne using **Next.js** and **Tailwind CSS**.
- Delivered pixel-perfect **Figma-to-production** implementation with performance optimisation and cross-device accessibility.

Achievements

- **Best Performer Award** – Arizon Digital

September 2025

Certifications

- React Basics – Coursera
- Programming with JavaScript – Coursera
- Introduction to Front-End Development – Coursera

Education

Bachelor of Engineering – Mechanical Engineering

2019 – 2023

SACS MAVMM Engineering College, Madurai, India
